

ENGINEERING & LOGISTICS

DISCIPLINE
SAFETY
RESPONSIVENESS

Together, Protecting Our Nation

SoBran is the right partner for engineering, logistics and Chemical, Biological, Radiation, Nuclear, and Explosive (CBRNE) protective services. All branches of the U.S. military, federal agencies and a growing portfolio of commercial enterprises count on SoBran to help address their most difficult challenges. Let our decades of experience be your gain.

Responsive and On Budget

We become an integral part of a client's team, collaborating with you to stay within budgets and providing accurate, real-time reporting on project status. With flexible staffing options and partnerships across the industry, our highly specialized talent helps you to quickly respond to changing requirements.

Providing Compliance Peace of Mind

As an ISO 9001:2008 certified company, we offer a deep understanding of regulatory requirements, compliance know-how, and management and program oversight. By maintaining ISO and Six Sigma requirements, security clearances and best practices in quality assurance, SoBran proactively works to satisfy compliance requirements and avoid policy disruptions.

SoBran Client Advantages

- Ability to focus on your organization's core strengths
- Flexibility to free up additional resources
- Ability to widen your talent pool as needed
- Access to niche capabilities
- Access to award-winning training and quality programs
- ISO 9001-certified program management
- Real-time access to certified subject matter experts
- Expert compliance and regulatory insight
- Competitive pricing

Client Services

Engineering

SoBran operates on the cutting-edge of design and system engineering technology.

- A comprehensive team of experts provides software and hardware development, systems integration, software and systems upgrades, system testing, troubleshooting support, process improvements, network administration and IT support
- We meet the latest ISO and Six Sigma requirements
- Our rigorous attention to our security profile enables us to successfully work within the most demanding Capability Maturity Model Integration (CMMI®) 5 and Biosafety Level (BSL) III environments

Logistics

- Complex warehouse management, supply chain management, workforce management, logistical assistance, and toolbox build-up
- Highly-skilled warehouse management from supply storage, processing, real-time inventory control, and distribution, to property pick up, warehousing and disposal
- A proven Integrated Logistics Support (ILS) model for developing customized superior material handling, screening and management processes
- Proactive team management and training
- ISO-certified quality and security controls

CBRNE Protective Services

SoBran is the recognized leader in the design, development, and fielding of Chemical, Biological, Radiological, Nuclear, and Explosive (CBRNE) protective systems and services.

- Under the SoBran **SafeMail®** program, our team of engineers and technical specialists provides comprehensive on-site threat analysis, system design, integration, and operational implementation
- Fast, accurate, cost effective and safe threat detection, identification, and isolation systems
- Specialization in operational, technical, and threat awareness training; the design of facility/threat centric protocols; the validation of operational processes; and the development of site-specific safety, security and emergency action plans
- A broad spectrum of CBRNE related training services for confidence that mailroom, facility and security managers have the tools necessary to counter the ever-changing variety of mail, personnel or vehicle borne threats
- General and equipment-specific operator training and certification for leading X-ray solutions and best practices for mail, baggage, and cargo screening
- Expert chemical surety services, laboratory support and sensor fielding and training, designed to ensure that the equipment worn by the Warfighter provides effective protection against evolving real-world situations

A Reputation Built on Making Our Clients Successful

Here is what a few of our clients have to say about our client services:

On quality...

"SoBran continues to provide the Joint Program Executive Office (JPEO) and the Joint Project Manager Nuclear Biological Chemical Contamination Avoidance (JPM NBC CA) with outstanding CBRNE equipment trainers who are sought after for their high level of professionalism and subject matter expertise."

– **Michael T. Benham**, APM Logistics & Fielding JPM NBC Contamination Avoidance

On efficiency...

"SoBran brought a degree of professionalism previously unseen at NIH warehousing while reducing our overall costs, improving safety, and reducing errors to 1/5 of our targeted rate."

– **Rose Ann Corley**, Director of Logistics, National Institutes of Health (NIH)

On service...

"I would like to express my appreciation for the outstanding job SoBran did in earning your fourth Outstanding Activity Award Certificate from the Measure Operational Control Center for your valuable contributions in supporting the Warfighter."

– **P.A. Sohl**, Commanding Officer, Fleet Readiness Center Southeast, Naval Air Station, Jacksonville, FL

The SoBran Commitment

SoBran has been serving government and commercial clients since 1987 with integrity and responsiveness. Our founder, Amos Otis, has understood the importance of integrity and responsiveness since his early days commanding a combat crew in the U.S. Air Force to the founding of our company on a single contract. Today SoBran is almost 1,000 employees strong and has \$61 million in annual revenue because our employees carry this commitment into every client interaction. At SoBran, each client is treated as our only client.

Contact Us Today

Reinforcing our commitment to accessibility and responsiveness to clients, SoBran services are available through a range of contract vehicles, including:

- GSA IT Schedule 70
- GSA PES Schedule 871
- GSA LOGWORLD Schedule 874V
- Logistics Management and Supply System (LMSS)
- DESP II
- CASU
- Navy Seaport Extended (SeaPort-e)
- NIH Laboratory Animal Research Contracts (LARC)
- FAST-2
