

ENGINEERING SERVICES

ENGINEERING & LOGISTICS

Building a Secure Future

Building tools to help secure our future, SoBran's engineering team designs and implements innovative solutions for all branches of the U.S. military, as well as a range of federal agencies and commercial enterprises.

Our system engineers, test engineers, software developers, configuration managers and logistics managers collaborate with government and industry to address today's difficult challenges in the areas of engineering, logistics, homeland security, anti-terrorism, infrastructure and environmental protection.

Engineering Services

SoBran's engineering services meet the most current ISO and Six Sigma requirements, allowing us to operate on the cutting-edge of design and system engineering technology. Our rigorous attention to our security profile enables us to successfully work within the most demanding Capability Maturity Model Integration (CMMI®) 5 and Biosafety Level (BSL) III environments.

STRENGTH

SoBran has earned a solid reputation for outstanding performance – on time and on budget – for projects of national importance. Clients benefit from our deep domain expertise and industry innovations in areas such as: laboratory support and sensor fielding and training to protect the Warfighter; real-time operating systems; and embedded systems engineering.

Our engineering and technology solutions include:

- Software development
- Systems engineering
- Test engineering
- Structural engineering
- Integration lab support
- Program/project management
- Configuration management
- Network administration
- IT support
- Advisory and assistance services
- Aging and surveillance program support

Responsive to Your Needs

SoBran supports a range of sensitive programs for clients, including:

- Department of Defense (DoD)
- US Army, Air Force, and Navy
- Department of Homeland Security (DHS)
- General Services Administration (GSA)
- Commercial clients include: Gannett, IKON, 2008 Presidential Campaign

We collaborate with complementary service and solution providers, from SBA 8(a) program members to multi-billion dollar organizations.

Reinforcing our commitment to accessibility and responsiveness, our services are available through a variety of contract vehicles, such as GSA PES Schedule 871.

SoBran is the partner you can count on to support your demanding engineering and security environments.

Let us show you how our continued commitment to quality, efficiency and service can help you realize your goals.
