

EASY TO MAKE AND HARD TO SPOT

COMPANIES AREN'T PREPARED TO STOP MAIL THREATS

Package bombs exploding in Texas, powder mailed to the President's son and an anthrax scare targeting British royals brought mail terrorism front and center this year.

ANYONE CAN BE A TARGET

25% of companies say they received threats in the mail this year.

Most didn't report them.

25%

MOST ORGANIZATIONS DON'T TAKE ADEQUATE PRECAUTIONS TO BLOCK MAIL THREATS

Half of companies surveyed don't screen incoming mail at all. Those that screen typically stop at visual inspection (69%) or X-ray (60%).

Potential threats they miss

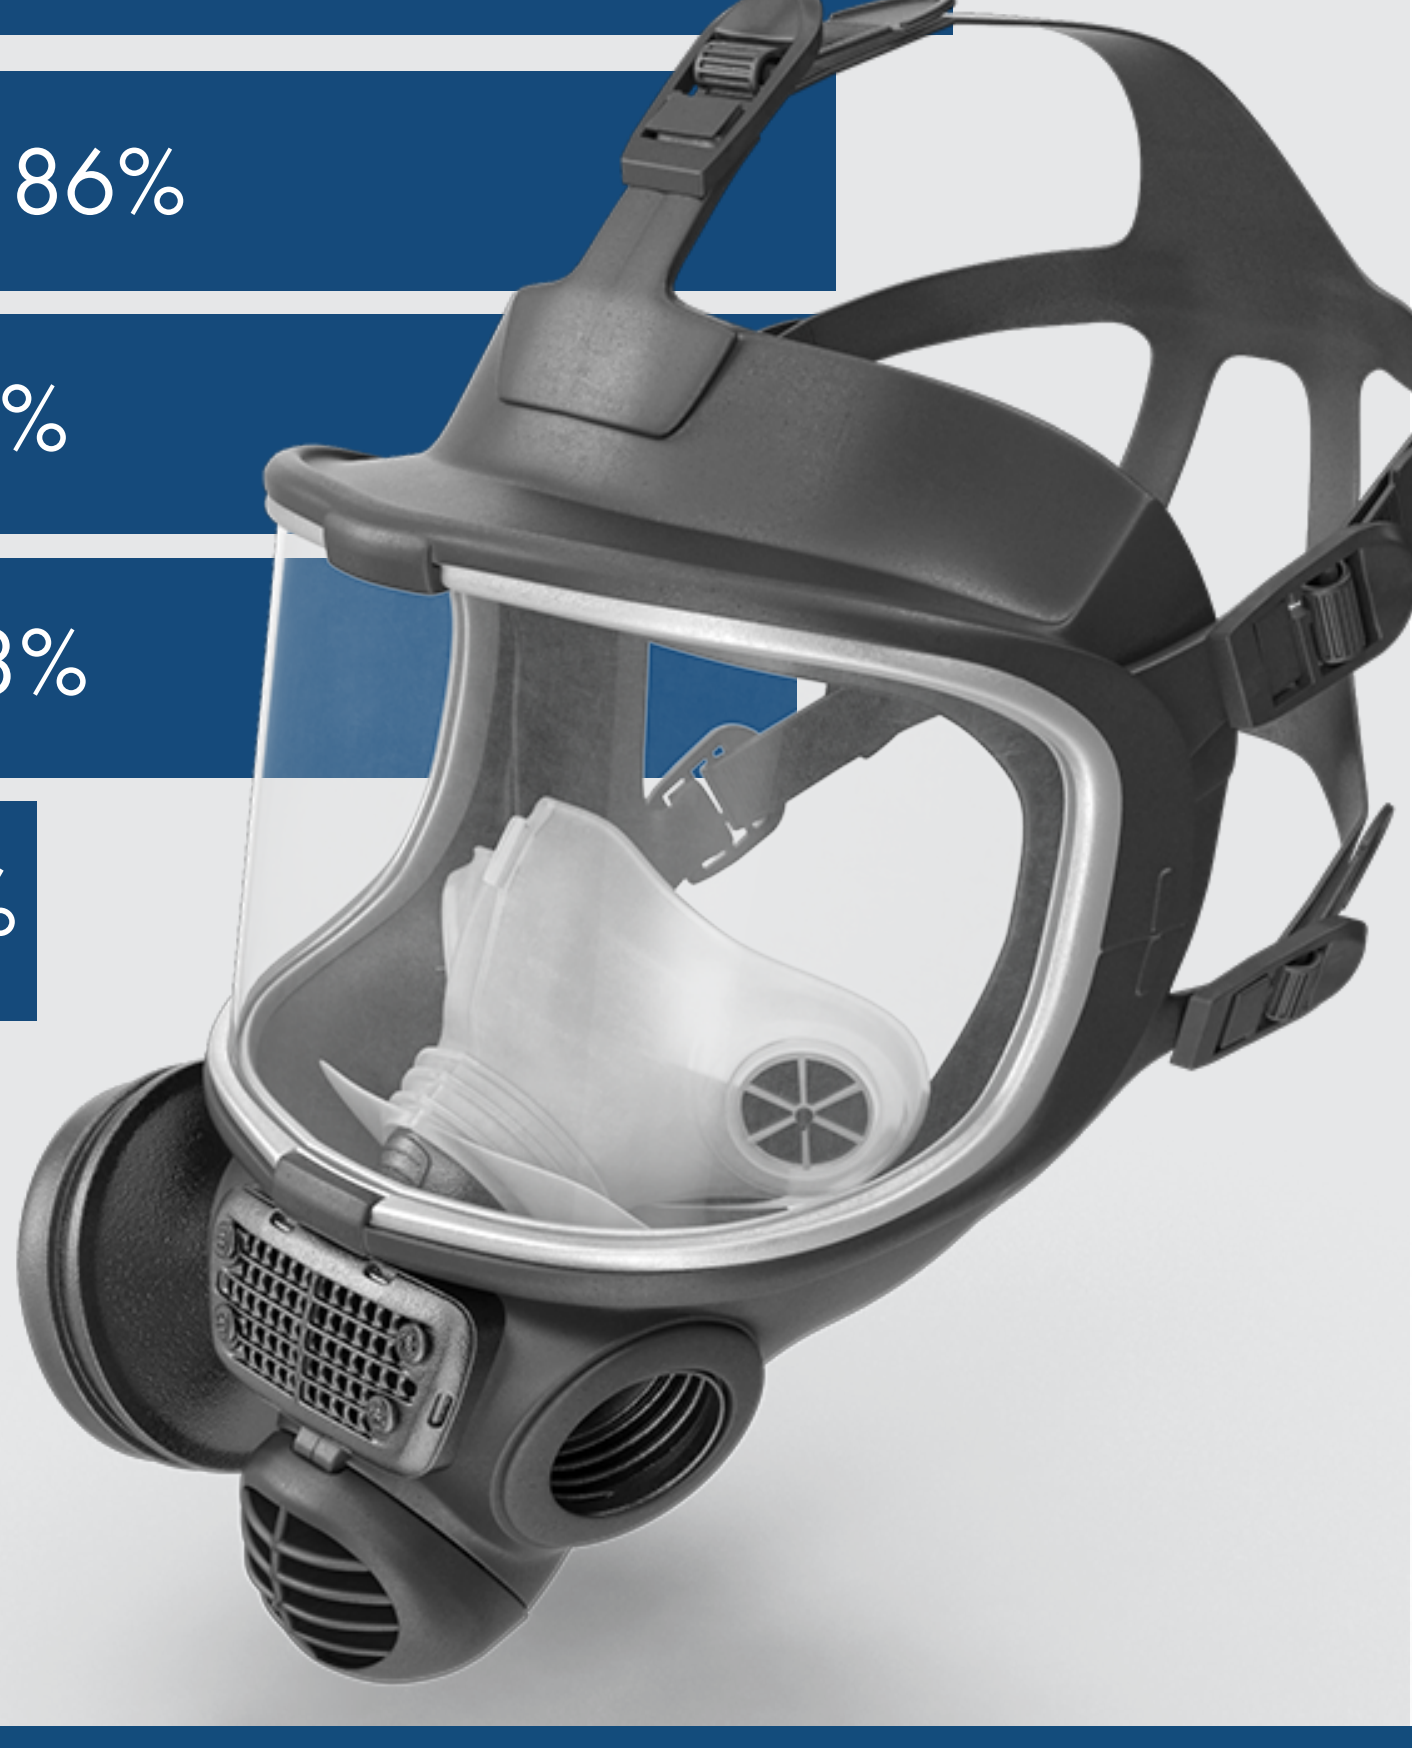

Nuclear Threats 91%

Radiological Threats 86%

Chemical Threats 86%

Biological Threats 83%

Explosives/IEDs 40%

60%+

handle screening on site, on their own, potentially exposing employees and critical assets to harm.

SECURITY PROFESSIONALS FACE ROADBLOCKS TO BUILDING EFFECTIVE MAIL SCREENING PROGRAMS

YOU AREN'T IN THIS ALONE
