

# SafeMail<sup>®</sup>

DC

## SafeMail<sup>®</sup> DC Protects Your Employees, Operations and Your Organization's Reputation

### It's not "if," but "when."

**THREATENING LETTERS AND PACKAGES  
ARE RECEIVED EVERY DAY.\***

The SafeMail<sup>®</sup> DC mail screening facility provides clients with affordable protection from mail terrorism threats. We pick up your mail, screen it, and deliver it promptly to your door.

You don't have to allocate space or staff or expose your team to potential threats. We eliminate hazardous mail before it reaches your door.

### Don't let this happen to you.

**THE GOAL OF A MAIL TERRORIST IS TO  
DISRUPT AND GENERATE PUBLICITY**

In a matter of minutes, a mail threat could force your employees to be evacuated. Staff scrubbed down by a hazmat crew, their images broadcast on national news and social media.

Mail threats are a low-cost, accessible form of terrorism. For the price of a stamp, your organization is at risk for disruption or real harm.

\*According to the U.S. Postal Service, the number of suspicious pieces of mail is holding steady.

## Not on our watch.

### A CUSTOM SCREENING PLAN WILL BE DEVELOPED FOR YOUR ORGANIZATION.

Taking into account your organization's risk profile, a comprehensive and customized mail screening for chemical, biological, radiological, nuclear and explosive (CBRNE) threats is employed. Screening can take less than 90 minutes and your mail delivered to you the same day.

Strategically located outside Washington, DC, SafeMail® DC offers the region a state-of-the-art mail screening facility.

### AT THE FOREFRONT OF MAIL SECURITY

**SoBran** has been keeping clients safe from mail attacks since 2001, when the U.S. Army asked us to develop and operate their mail screening program.

**SoBran** helped the U.S. Government define national mail security standards, while securing mail for clients such as the Department of Homeland Security and Wall Street institutions.

Guided by retired members of the U.S. military, U.S. Secret Service and law enforcement, we have continuously evolved the SafeMail® approach to become the gold standard in protection against mail threats.
