

MAKE SURE YOU ARE PREPARED FOR WHATEVER ARRIVES IN THE MAIL

SIGNS OF POTENTIALLY DANGEROUS MAIL

as well as these additional signs of potentially dangerous mail

Strange odors

No return address or
strange return address

Unusual addressing, such
as not being addressed to
a specific person, incorrect
title or title without name

Restrictive markings,
such as "Personal" or
"Confidential" or
"Do Not X-ray"

Postmarks that do not
match return addresses

Unusually heavy packages

MAIL BORNE THREATS CAN IMPACT AN ENTIRE ORGANIZATION.

If you don't know the indicators or how to respond you may be putting yourself
and your organization at risk.

SoBran, Inc. has been keeping clients safe from mail borne attacks since 2001, when we worked with the U.S. Army to develop and operate a mail screening facility to protect against mail borne chemical, biological, nuclear, radiological, and explosive (CBRNE) threats.
